Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

1. Agile Framework & Terminology Definitions

Term	Definition
Sprint	A fixed period or duration in which a team works to complete a set of tasks.
Epic	A large task or project that is too large to complete in one sprint. It is broken down into smaller tasks (stories) that can be completed over multiple sprints.
Story	A small, actionable unit of work. It represents a specific functionality or deliverable within an Epic.
Story Point	A relative metric representing the total effort, complexity, and risk required to complete a story, based on the Fibonacci sequence.

Story Point Effort Scale:

- **1 Point:** Very Easy Task (Minimal effort/complexity)
- **2 Points:** Normal Task (Standard execution)
- **3 Points:** Moderate Task (Requires additional logic/validation)
- **5 Points:** Difficult Task (Complex automation, integration, or end-to-end testing)

2. Sprint Workflows & Story Point Breakdown

Sprint	Story ID	User Story Description / Epic	Story Points
Sprint 1		Epic 1: Laptop Request Intake	
	USN1	Capturing Laptop Request	2
	USN2	Validating Request Details	3
	USN3	Checking Standard Laptop Eligibility	3

Epic 2: Procurement Data & Catalog Setup			
	USN4	Configuring Standard Laptop Catalog Item	3
	USN5	Mapping Required Procurement Fields	3
	USN6	Setting Default Laptop Specifications	2
Total Story Points in Sprint 1:			16
Sprint 2	Epic 3: Flow Designer Automation		
	USN7	Creating Flow Trigger for Laptop Request	3
	USN8	Adding Approval Logic	3
	USN9	Automating Procurement Order Creation	5
	USN10	Sending Request and Order Notifications	2
Epic 4: Testing & Monitoring			
	USN11	Testing End-to-End Laptop Order Flow	5
	USN12	Handling Exceptions and Failed Orders	3
Total Story Points in Sprint 2:			21
Sprint 3	Epic 5: Deployment & Optimization		
	USN13	User Acceptance Testing (UAT)	3
	USN14	Deploying Flow to Production	3
	USN15	Monitoring Procurement Automation	2
	USN16	Documenting the Standard Laptop Procurement Process	2
Total Story Points in Sprint 3:			10

3. Project Metrics & Velocity Metrics

Metric Description		Value
Sprint 1 Total Points		16
Sprint 2 Total Points		21
Sprint 3 Total Points		10
Total Project Story Points		47
Total Number of Sprints		3
Velocity Formula		Total Story Points Completed / Number of Sprints
Calculated Velocity		47 / 3 = 15.67 Points / Sprint
Approximate Team Target Velocity		16 Story Points per Sprint
